

2017 CREEL SUMMARY. THIS IS THE INFO FROM DFW WHEN THEY MEASURE AND WEIGH YOUR FISH.

“Here is a summary for the 2017 season (Opening day through October). With the low catch rates many anglers stayed on the water longer, past our survey hours, resulting in fewer anglers interviewed (on top of the already lower than normal fishing pressure).” Paul Divine, DFW biologist

Anglers Interviewed	Angler hours	Total Fish	CPUE	Ave length	Ave Weight
414	1430	242	0.17	16.40	1.95
